ALTEC LANSING®

LAPTOP AUDIO™

YOUR LAPTOP IS AN EXTENSION OF YOURSELF.

It's your music jukebox, your interactive playground, and your productivity tool, all rolled into one. But you've noticed: it doesn't sound too good. If you've ever tried to share a multimedia presentation using your tinny, built-in laptop speakers, you know exactly what we mean. Introduce your laptop to the Altec Lansing XT2 and watch them sing like The Righteous Brothers. Flip out the pivoting stands, link up through the USB port, and enjoy superb sound and surprisingly deep bass. Thanks to a microphone built-in to the right satellite, you can even use the XT2 for Internet communications. And for an audio boost, use the optional power supply (included). Of course, the XT2 travels light. Pack it up in its rugged deluxe carrying case, and you're ready for your next trip.

Built-in microphone for Internet communications
Dual power – use with your laptop USB port or plug into wall outlet for audio boost
USB powered

XT2

Big Sound for Laptops...

Deliver dynamic presentations – and music to your ears – by adding high quality audio.

Ultimate Portability...

Powerful speakers, with rugged pivoting stands are neatly encased for travel.

USB-Powered...

Delivers true digital sound directly from your laptop. Or plug in with the supplied adapter to save laptop power and boost audio output.

Talk Back-enabled...

A built-in microphone, with automatic feedback cancellation, captures your voice for VoIP and interactive gaming.

Built-in Controls...

Includes conveniently positioned on/off, volume and mute buttons.

Auxiliary Input Jack...

Connect other audio sources, like CD, MP3 and portable DVD players, to your speakers (cable included).
